KRKA WATERFALLS

ŠIBENIK

ITINERARY:

Saturday OPATIJA – RAB (L, T)

Departure at 14h towards Rab, known as the “island of love”, with an old town of the same name. Guided city tour includes the medieval walls, the famous four towers together with palaces, churches and squares. There is a slight Montmartre feel with many artists painting and exhibiting out on the streets. Legend has it that local nuns created a special Rab cake for a visiting Pope and we will sample this after the tour. The recipe remains forever secret.

Sunday RAB – ZADAR (B, L)

After breakfast we head for Zadar, the oldest university town in Croatia with an amazing heritage and where history looks you in the eyes: The Roman Forum from the 1st century, St Donat church from the 9th century - the most famous medieval Basilica and the city's symbol, the mighty city walls, over 30 churches. Museums and former noble families palaces and villas in the old town. In recent years Zadar has added a touch of cool with the famous Sea Organs and “Greeting to the Sun” light installations, both located on the city's waterfront. Watch the fabulous sunset from here.

Monday ZADAR – KRKA WATERFALLS / ŠIBENIK (B, T, D)

Wine and waterfalls! Cruise towards Skradin. First stop is the famous Bibich winery for wine tasting and light tapas lunch. Back in Skradin we walk through the Krka Waterfalls National Park and visit “Skradinski Buk”. Jaw droppingly beautiful, this is the most popular part of the waterfall area. There are 17 waterfalls, with cascades up to 100 m wide, and the Krka river tumbles 45.7 meters. Šibenik is almost in the very central part of Croatia's Adriatic coast and it is our afternoon destination. Explore the glorious old town, the cultural monuments and possibly the most famous one here, the UNESCO listed Cathedral of St James. Wander and discover the historic core and waterfront of Šibenik and enjoy some shopping too. Dinner on board.

Tuesday ŠIBENIK – SPLIT (B, L)

We continue south to Split, Croatia's second largest city where Roman Emperor Diocletian built himself a retirement palace now under UNESCO protection. Split waterfront is a happening place and there's a buzz along the beautiful wide promenade. A local guide meets us on arrival for a walk through the heart of the bustling old town and the market.

Wednesday SPLIT – METKOVIĆ (B, L, CD)

Today we discover one of the last remaining wetland deltas in Europe. We cruise to Metković, on the banks of the river Neretva after which the delta is named. Here, mandarins grow by the water channels and we take a barge ride to explore the groves, the flora and fauna, wild birds and the traditional way of life of the Neretva people. There is a delightful, “time warp” feeling like nowhere else on the coast. Narona archeological museum in Vid, which we visit, was formally inaugurated in 2007 as the first „in situ” museum in Croatia exhibiting the remains of a Roman temple. Narona holds the remains of a Roman temple – the Augusteum – and seventeen monumental marble sculptures of Roman emperors and their family members. This is where the ancient Illyrians, Greeks, Romans once sailed, and, according to legend, the pirates of Neretva planned their raids on enemy galleys. Captain's dinner with live entertainment on board scheduled for this evening.

Thursday METKOVIĆ – KORČULA (B, L)

Departure towards Korčula, an island best known as the birthplace of Marco Polo, the famous explorer. Covering much of the island are the distinct, almost black pine forests so Korčula is also known as „the Black Island”. Korčula Town is often called mini Dubrovnik, as it is also encased by medieval stone ramparts and towers. The famous Moreška sword dance-fight is thought to have come to the island when the Moors raged through this region and there are regular performances. A local guide will lead you through the old town where tiny streets are designed in a fish bone pattern for a very good reason that you will hear about! Lots of simple konobas, restaurants and cool cocktail bars for chill out time.

Friday KORČULA – DUBROVNIK (B, L)

There is no better way to catch the first sight of your final destination - the famous town Dubrovnik - than approaching from the sea. It is one of the few walled cities on the sea in the world. Writer George Bernard Shaw described it as “heaven on earth”. We cruise alongside the old city walls for a true perspective of the majesty of this place. Lunch is served on deck as we head for Gruž harbour to dock. Once moored, join a transfer to the old town for a guided walking tour. Take the cable car from the Old Town to Srđ mountain for fabulous

views of the city itself and the Elaphiti Islands. In your own time, why not walk those famous ramparts (all 1940 metres long!), or explore any of the museums in more detail, such as Sponza or Rectors, now is the time.

BORA & SALT PATHS

Guaranteed departures

LEGEND:

B = breakfast, L = lunch,
T = tasting, D = dinner

The bora is a dry, gusty northeasterly wind blowing from the mainland towards the sea.

There is a popular saying that claims that the bora is born in the town of Senj, gets married in the town of Bakar and dies in Rijeka - the biggest Croatian port.

A great idea would be to check this out, right?

ITINERARY:

Day 1 RIJEKA (L)

Bora brings out the crystal sea, sky and good visibility so we recommend a visit to Trsat castle, located high above Rijeka. From Trsat tower the view stretches across the magnificent Kvarner bay, the city of Rijeka and Opatija as well as the nature park Učka and the islands of Cres and Krk. After a must-have cappuccino, our recommendation would be to try the Kvarner bay prawns which are meant to be the best in the world. Their natural habitat is low-sea terrain with lots of fresh water springs making them soft and sweet in taste.

Day 2 BAKAR – SENJ - ISLAND PAG (B, D)

The path of bora continues towards the town of Bakar. Enjoy the panoramic view of the bay and taste the delicacy "baškoti". In Bakarac you can see the old "tuneras" wooden ladders on which fishermen waited for hours until the fish especially tuna came and they finally could catch them in their nets. This small town is also known for its strong bora since it lies in a ravine. A special sight are the stone terraces of former vineyards, which are slowly being renovated and where the grapes for the famous sparkling wine ripen - Bakarska vodica. The trip along the Croatian coast continues with panoramic views of the 1430m long Krk bridge. A short stop is planned in the town of Senj, also known for strong bora, and the fortress of the Uskok "Nehaj" - today a museum and a landmark. Built in 1558 it is square shaped and oriented to the sky. The route takes us to the ferry port Prizna for the island of Pag.

Day 3 ISLAND PAG (B, T)

Pag is famous for its award-winning local products - the sheep cheese, the Pag lamb, the salt production as well as for the production of Pag lace. The entirely bare landscape partly resembles the lunar landscape due to the bora impact. The bora, on the other hand, brings salt to the stonewall guarded pastures. In 2010, Pag lace was included on the list of the intangible cultural heritage of UNESCO. Credit for maintaining the mentioned tradition goes to the Benedictine monastery of St. Margaret and lately the lace association of the city of Pag. You will not only remember your stay on the island for the hospitality of the local people, but also for the delicious specialties: we recommend a good glass of wine in the well known konobas, paired with salt coated fish or lamb baked under the iron bell (peka) or on a spit.

Day 4 NIN (B)

Finally a visit to the town of the Croatian kings - Nin. There is much that will inspire you here, especially the old city bridge and an ancient Croatian ship from the 11th century - the Condura Croatica. The Church of the Holy Cross called "the smallest cathedral in the world" is the most valuable preserved monument of early Croatian religious architecture and one of Nins symbols. Nin is known for its sandy beaches as well as the salt factory. Built more than 1500 years ago it offers now a museum and a salt house to stroll through. Even today the salt is traditionally handmade here with the help of the sun, the Adriatic Sea and the bora from Velebit.
